

Digital Signage

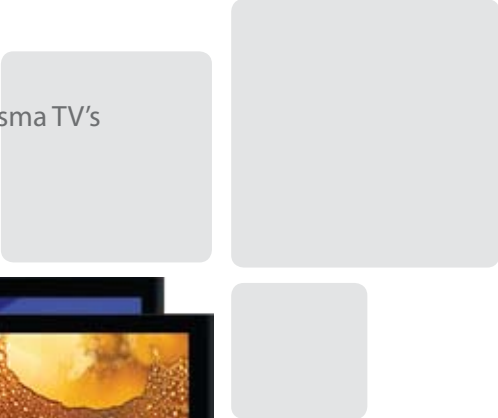

Inspire customer loyalty and increase revenues.

The latest in digital media technology, Digital signage ensures that customer take notice of your promotions and events.

Combine our simple to use technology with your existing LCDs/Plasma TV's to run in house advertising.

We offer the latest in graphical technology custom built for the hospitality industry.

Our pre-packaged solution lets you easily create messages and ad layouts at your desktop.

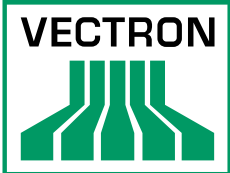

How Digital Media can benefit your business?

- Cross promote various aspects of your venue
- Increase customer awareness of your services
- Promote upcoming events, specials and high return products
- Announce important changes to prices and menus
- Provide value-added live content to customers including TV, news and weather
- Onscreen logos and corporate colours
- Revenue generation by advertising local non-conflicting businesses

Capturing customers...mind, heart, wallet

Digital Signage For Large Venues and Groups

Our robust networked platform offers unmatched flexibility & scalability for managing digital displays.

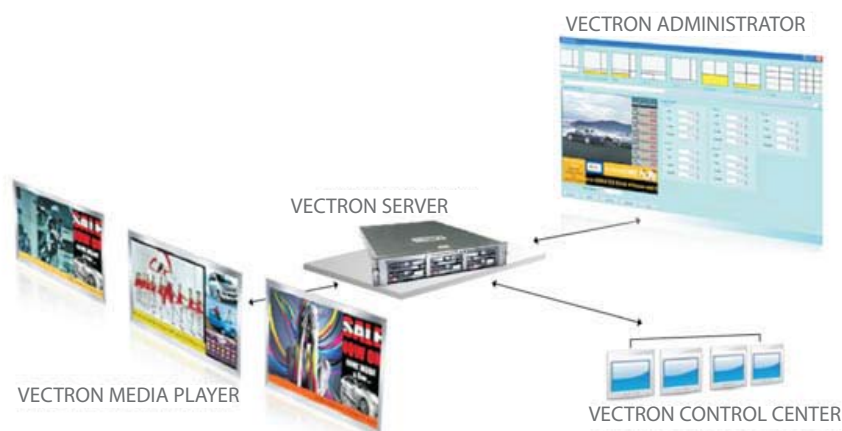

Provide compelling customer product videos, impressive animations and impactful graphics.

You can create and schedule content for distribution across your network. Our platform supports most media formats, including live TV . You can play multiple media formats; broadcast content to all locations or narrow cast to specific screens

Centrally monitor all your screens with our dashboard view of all screens in you network. Our built in watchdog function ensures your system does not freeze at critical moments.
