

SEAFOOD D'LITE - SYDENHAM

Vectron provided a clean upgrade for the traditional fish and chip shop in Sydenham. The Vectron solution provided the ability to do away with pen and paper order taking and cash register transactions. We now have a smart system that standardises our order taking, prints out kitchen dockets and integrates with our EFT POS.

Vectron has provided a great system well suited to my business, it's elevated my business to the next level. They have provided great support and installation. We recommend to anyone, I should have done it sooner. Shaun Sleiman – Owner Seafood D'Lite – Sydenham.

Service type – Take away, Phone

Equipment – 1 terminal with customer display and thermal printer – take away orders, 1 terminal phone orders, 2 kitchen printers (fried/grilled).
